SAVE on Predictable Expenses

Each one of us would like to have more money in our pocket. Participating in your company-sponsored Flexible Spending Account can do just that! What types of FSAs are available?

► Premium Conversion

This account type pays your medical, dental and vision plan contributions automatically on a before-tax basis. The monies withheld from your paycheck are used to pay the monthly premiums for these important employee benefits. The benefits you enjoy are two-fold: you are covered by the medical, dental, and/or vision plan AND you receive a tax break.

► Health Care Reimbursement

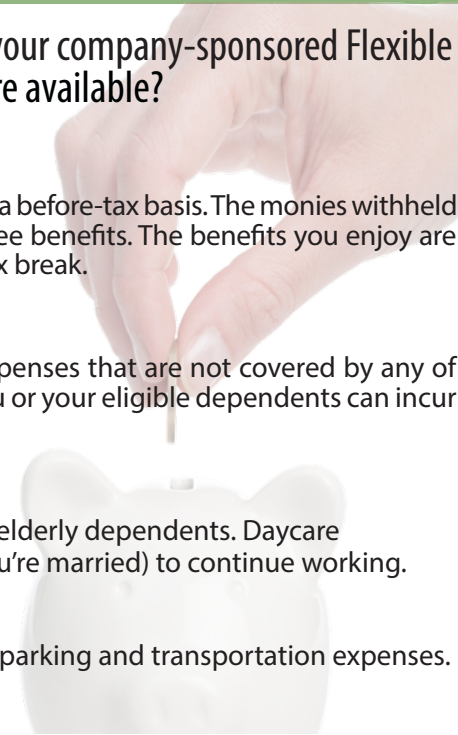

Use this account to pay for qualified, medically necessary medical, dental, or optical expenses that are not covered by any of your insurance plans. A partial list of eligible expenses is listed in this brochure. Either you or your eligible dependents can incur these expenses.

► Dependent Care Reimbursement

You can set aside funds annually to offset daycare expenses for your eligible children or elderly dependents. Daycare expenses are defined as those that are necessary in order for you (and your spouse, if you're married) to continue working.

► Parking & Commuter Reimbursement

If offered by your Plan Sponsor, you can reimburse yourself for a number of work-related parking and transportation expenses.

CALCULATE your Estimated Expenses

Use these worksheets to estimate your annual expenses. Estimate conservatively, because any funds left in your account at the end of the Plan Year may be forfeited under IRS guidelines. Remember, calculated amounts cannot exceed the calendar year limits established by your plan sponsor and the IRS.

Q & A on Health Care FSAs

How do I know how much money is in my account(s)?

You can check your balance through the My SmartCare online portal, mobile app, or by calling BCC's Customer Service Call Center. Once registered with My SmartCare, you will receive monthly balance reminders via e-mail.

When can I start using my FSA funds?

You can access your entire annual contribution on the first day of your Plan Year. For example: if your Plan starts January 1st and you incur a large expense that day that is not covered by your insurance plan, you can submit the expense (up to your annual contribution amount) for reimbursement even though the Plan Year's contributions have not all been collected.

Can I change my election amount mid-year?

No. Health care FSA election may only be altered if you experience a change in status as defined by IRS regulations (i.e. marriage, divorce, birth, or death in your immediate family). The change must be made within 30 days of experiencing the status change.

What happens to the money left over when the Plan Year ends?

Check with your plan-sponsor for guidance on what happens to your unused funds when the Plan Year ends. Remaining funds may be forfeited under the IRS "Use It or Lose It" rule. Or, your plan-sponsor may have adopted a rollover provision or grace period.

How do I determine the date my expense was incurred?

Expenses are incurred at the time that the service was provided, not when you are invoiced or when you pay the bill.

Can I use my funds to pay for my family's qualifying expenses?

Your FSA funds cover eligible expenses for you and all of your dependents, even if you and/or your dependents are not covered under your Plan Sponsor's primary health plan.

Do I choose Debit or Credit at the payment terminal when I use my benefits debit card?

Your benefits debit card can be swiped as either credit or debit at the time of purchase. If you choose to swipe as credit, you will need to sign for the purchase. If you choose to swipe as debit, you will need to enter your PIN number for purchase. To obtain the PIN associated with your card, you can use the My SmartCare online portal or mobile app. Your PIN is pre-determined at issue and cannot be customized.

Can I get cash back at the point of sale or ATM with my PIN?

No. Your benefits debit card is only to be used for qualifying purchases and is not enabled for cash back.

What do I do if I forget my benefits debit card PIN?

You can retrieve your PIN through the My SmartCare online portal or mobile app. For security purposes, neither BCC's Customer Service Call Center nor your HR Department have access to your PIN. If you forget your PIN, you can swipe your card as credit and sign for the purchase instead.

How can I use my card if I receive a bill from a provider in the mail?

If the bill provides a space for payment via credit card, fill out that section with your card information OR call the provider for payment over the phone to provide payment information.

What if the doctor's office does not take credit cards?

Cardholders would have to use another method of payment and then submit a manual claim.

What should I do if I accidentally use the card for an ineligible expense?

You will receive a notice from BCC asking that you reimburse your account for the ineligible amount.

Can I order additional cards for my family?

Yes, for your spouse or other eligible dependents (over the age of 18). You must complete and return a request form to BCC for processing and card generation.

What do I do if my card is lost or stolen?

This must be reported to BCC via the My SmartCare online portal, mobile app, or by calling BCC's Customer Service Call Center. A replacement card will be ordered and the lost or stolen card will be deactivated.

What do I do with my card after I've used all of my available funds?

Your benefits debit card is good for up to three years. Keep the card after you have used all of your available funds because you will be able to use it again next year for future Plan Years when you re-enroll.

Do I still need to keep my receipts?

Yes. Although there is no requirement for you to complete claim forms and submit physical receipts, additional documentation may be requested in some cases to confirm the eligibility of a benefits debit card purchase.

Why should I use my benefits debit card if I still might have to submit paper at a later date?

Not all transactions will trigger a request for substantiation. According to IRS Publication 969, "...If the use of these cards meets certain substantiation methods, you may not have to provide additional information to the health FSA." BCC's hosted debit card system works in conjunction with registered IAS terminal merchants to help ensure cards are used for eligible expenses only.

My transaction is a Code S213(d) medical expense. Why did I receive a letter requesting additional documentation?

To ensure compliance with IRS guidelines, BCC must perform audits on large dollar claims and amounts over \$50.00 at certain locations where it is not readily discernible as to the use of the funds. Additional audits may also be performed to ensure the integrity of the claims payment process.

My benefits debit card transaction already went through and payment was made. What happens if I don't respond to BCC's request for documentation?

Failure to provide appropriate documentation within 30 days from the date of the initial request will result in the benefits card being made temporarily inactive. Claims will then only be processed via the regular request for reimbursement method until appropriate documentation is received, reviewed, and approved.

RULES TO REMEMBER

Participants must actively enroll in an FSA plan each year. FSA Enrollment does not automatically carry forward from one Plan Year to the next.

Once FSA contributions begin, an election can change **ONLY** if a change in family status occurs, as defined by the IRS. This includes marriage, divorce, birth or adoption of a child, or the death of a dependent.

IRS regulations very clearly define FSA rules because you are affecting your taxable income by contributing to an FSA. You must keep these rules in mind when you are planning your contributions and using FSA funds.

Be aware that when taxable income decreases, one's Social Security contributions decrease. This reduction of Social Security (FICA) contributions may affect future retirement or disability benefits.

Estimate your annual contributions conservatively as unused funds at the end of the Plan Year may be forfeited under the IRS "Use It or Lose It" Rule. Check with your plan-sponsor on any available rollover provisions or grace periods.

If enrolled in more than one FSA category, reimbursement can only occur from the account for which the contribution was designated. In other words, if a contribution is made to both Health Care and Dependent Care Accounts, reimbursement for a dependent care expense cannot occur from the Health Care account.
